## Center for Excellence in Learning and Teaching

### Teaching at Iowa State University

The Center for Excellence in Learning and Teaching (CELT), focuses on our mission: **“Partnering with educators to advance student-centered learning at Iowa State University.”**

CELT provides consultation, resources, and programs for instructors, faculty, staff, graduate students, and postdocs interested in teaching. We aim to support, promote, and enhance teaching effectiveness and student learning. CELT has experts ready to help serve as catalysts for online and digital pedagogy, in addition to topics covering assessment and evaluation, mindfulness and contemplative pedagogy, graduate student success, and communicating the importance of effective and inclusive teaching and learning practices.

We have developed a rich set of online resources that support CELT’s mission and current initiatives available [on our website](#).
